

# SGS WEEE SERVICES

## Directive 2002/96/EC on Waste Electrical and Electronic Equipment - WEEE

The WEEE Directive aims to minimise the environmental impact of the disposal of waste electrical and electronic equipment by making manufacturers, resellers and importers responsible for collection, reuse, recycling and recovery of such waste. EU Member States have implemented their national WEEE regulations. SGS provides the following services to help clients solve out the different EU WEEE regulations and comply with them.

### REGISTRATION IN EU MEMBER STATES

- Consulting for producer obligations
- Analyses of individual cost advantages
- Provide a legal and cost effective take-back system for b2c or b2b equipment
- Administrative work for registration at national register or environmental authority
- Inspection audit of legal requirements at treatment facilities
- Verification and reporting of recycled and recovered quantities

### WEEE REPORT - PRODUCT RECYCLING MANUAL

The WEEE Report provides

- Recycling and recovery information of your products
- Information about selective treatment (Annex II) and material composition

### REGISTRATION IN GERMANY

- Registration at German authority EAR
- Finding appropriate take back solution
- Arranging a cost effective financial guarantee solution
- Reporting of monthly/annual quantities
- Consulting of further producer obligations, corresponding law is the "ElektroG"
- "ElektroG certification" of legal requirements at treatment facilities

### WHY SGS?

- Registration and reporting of WEEE is done by one competent contact person
- Approved recycling and logistic service providers
- SGS terms for recycling and logistic
- Best individual alternative for financial guarantee
- Demonstrate to customers that your company is compliant with the WEEE Directive/national law
- Show to buyers with SGS WEEE Report that your product is easy to recycle

The SGS logo consists of the letters 'SGS' in a bold, sans-serif font. A vertical line is positioned to the right of the letters, extending from the top of the 'S' down to the bottom of the 'S', and a horizontal line is positioned below the letters, extending from the left edge of the 'S' to the right edge of the 'S'.
