## THE CERTIFICATION AND BUSINESS ENHANCEMENT APPROACH

Organizations today are met with a variety of operational and business challenges. External forces, like competitors and regulatory bodies, also add a secondary level of pressures that must be anticipated. Additionally, both B2B and B2C firms are experiencing a large influx of customer data, across multiple touchpoints. The dividing factor between those who are successful and those who are not, is how they analyze and use that data for business enhancement. At SGS, we have developed a variety of solutions to not only meet these needs, but establish more efficient and profitable ways of working. Using our 140 years of experience and operational data set, we partner with clients to gain intelligent insights into their current business functions while simultaneously strategizing for the future. To meet the needs of our current customers and provide effective and modern solutions to current and future business issues, we offer three pillars of insights driven, customizable products and solutions.

## THE BUSINESS ENHANCEMENT PLATFORM

For decades, SGS has been known as the global leader in certification, working with clients in virtually any sector. This deep and broad experience in quality control management, regulatory compliance, and training has resulted in a staggering array of data points across industries. Utilizing this dataset, we have evolved our service offerings to include Business Enhancement—the process of transformation that improves or increases the value of an organization’s people, processes, product or service. Our Business Enhancement solutions offer the most up to date, practical insights to help you achieve your goals and ultimately BE the Benchmark.

### SGS BUSINESS BENEFITS

- Deliver innovative solutions and services that enhance businesses
- Offer customized solutions, driven by proprietary insights
- Provide services fundamental to ongoing success and sustained growth
- Enable continuous improvement
- Transform value chains

## WELCOME TO SGS ACADEMY HONG KONG

SGS Academy global learning and development solutions cover a wide range of industries and subject areas, providing expertise designed to help you and your organisation continually adapt the way you work and keep ahead of market developments.

### INTERNATIONAL RECOGNITION

The specific lead auditor courses, SA 8000 basic auditor course and sustainability reporting courses have been recognized and authorized by international accreditation bodies including IRCA, SAI and GRI respectively. Upon completion of the course, the trainees will be able to register as a qualified ISO auditor and obtain an international recognized certificate.

### RECYCLING FUND, CEF & RTTP SCHEME

Some training courses have been subsidized by Recycling Fund, CEF (Continuing Education Fund) and RTTP scheme (Reindustrialisation and Technology Training Programme). Recycling Fund aims at providing training and certification services for the grantees of Small-scale Standard Projects Type I of the fund. RTTP scheme aims at subsidizing local companies on a 2:1 matching basis to train their staff in advanced technologies, especially those related to Industry 4.0. Training grant is not more than two-thirds of the approved course fee under RTTP scheme.

### LANGUAGE

All classes will be conducted in Cantonese, except the classes which marked with "ENG" or "Mandarin", will be conducted in English or Mandarin.

### EARLY BIRD AND SGS CLIENTS DISCOUNT

Discount will be offered to SGS certified clients, all enrolments made one month prior to the course or online booking, except CEF courses, RTTP courses & Joint courses with SGS Partners.

\* Early Bird Price is offered to CEF courses & RTTP courses only if enrollments made one month prior. All the discount offers cannot be used in conjunction with other promotional offers.

# Discount will be offered to HKIE members
