MAKING THE DIFFERENCE

INNOVATIVE QUALITY, SAFETY & SUSTAINABILITY FOR COMMODITIES

SGS

Sampling, testing, inspection, audit and certification ensure the quality, safety and compliance of vegetable oils and fats.

Internationally recognized for our expertise and independence, our global resources are situated in all major production, processing and consuming countries.

TESTING

Our global network of laboratories, staffed by knowledgeable and experienced personnel, help you to reduce risks, and demonstrate the quality and safety of your commodities, including:

- Quality parameters
- Contaminants
- GMO
- Mineral oil (Hydrocarbons)
- Mycotoxin
- Dioxins and pesticide residue
- Oilseed fatty acid profile
- Heavy metals
- And many more

INSPECTION

We help companies to deliver products that consistently meet high quality standards and contractual requirements.

- Vessels and containers cleanliness
- Loading and discharge supervision
- Weight control
- Sampling
- E-certificates

RISK MANAGEMENT

Helping you identify and manage risk in your operations and everyday business activities, including:

- Stock monitoring
- Guarantee services – full outturn (quality and quantity), comprehensive cover (marine insurance combined with full outturn), and rejection guarantees.

AUDITS AND CERTIFICATIONS

Our auditors can help you ensure that you have implemented an effective strategy and best practice compliance for product safety and sustainability.

- RSPO, MSPO, ISPO
- RTRS, Bonsucro
- ISCC, REDcert
- HVO Verification Scheme

MARKET INTELLIGENCE

Ensure effective strategic decision making with our comprehensive range of market intelligence services:

- Quality maps
- Trade flow data
- Mycotoxins monitoring programs
- Export quality data
- Customized market research services

TECHNOLOGY & INNOVATION

Innovation is at the heart of our business. New technologies deliver knowledge, insight, transparency and efficiency for our customers.

AgFlow

The trusted source for price discovery and analytics, vessel line-ups, freight metrics, tenders and reports.

SGS Digicomply

Transform the big data of compliance information into user-friendly actionable knowledge.

SGS Transparency-One

Manage risk, production and safety with SGS's digital supply chain solution Transparency-One.

Standardized Inspection Reporting (SIR)

Standardized internal reporting increases data accuracy and consistency, improving communication.

SGS e-documents

Receive your transactional reports and certificates by email – SGS e-documents delivers your documents quickly and securely.
