

# TARGETING **UKRAINE?**

EXPORTING INDUSTRIAL EQUIPMENT OR CONSUMER GOODS

[WWW.SGS.COM/INDUSTRIAL](http://WWW.SGS.COM/INDUSTRIAL)

**SGS**

### UkrSEPRO CERTIFICATION

To gain access to the Ukrainian market, many goods are required to be in compliance with the criteria of the Ukrainian DSTU Standards or safety regulations. It mainly concerns

- Food
- Textiles, cosmetics & toys
- Electrics & electronics
- Industrial equipment
- Telecom equipment
- Etc.

This conformity has to be proven by means of an **UkrSEPRO Certificate of Conformity**.

An original or certified copy of an UkrSEPRO Certificate is required for customs clearance at the border as well as for sale/marketing within the country. For industrial equipment it is also required at commissioning.

The certified product or its packaging should be marked by the **UkrSEPRO Mark of Conformity**.

### DPGN PERMIT (DOZVIL)

In Ukraine many industrial equipment is subject to the approval of the Ukrainian State Service for Industrial Safety and Technological Control, DerzhPromGorNaglyad (DPGN).

The DPGN Permit is essential to obtain permission for commissioning and putting into operation such equipment as

- Lifting equipment
- Heat exchangers
- Burners and boilers
- Pressure vessels
- Compressors
- Etc.

A DPGN Permit can only be issued on basis of an expertise executed by a Ukrainian Expert Centre accredited by DPGN.

### ROLE OF SGS

Since more than a decade now, SGS has established a close cooperation with relevant Certification Bodies and State Authorities in Ukraine, by such ensuring the exporter to Ukraine

- Being assisted in his own language
- Transparency in procedures and pricing
- No delays at customs
- Local support – if required – by local SGS offices

### ONE STOP SHOP

SGS offers access to similar certification systems in **Russia, Kazakhstan and Belarus**.
