

CONTRACT SOLUTIONS FOR A FLEXIBLE WORKFORCE

ISSUED – APRIL 2017

SGS TECHNICAL STAFFING SERVICES – FINDING THE RIGHT PEOPLE FOR JGC

SGS technical staffing services has been providing manpower services to JGC since 2003 with a total over 1 million man hours for a contract value in excess of 20 Million USD. Cooperation between SGS and JGC started in Qatar on the Dolphin LNG Project, which was developing and processing the gas for export from Qatar's North Field to the UAE and elsewhere around the world.

A flexible, skilled workforce is the key to success in business. Contract employees thrive on the challenges and variety of placements this type of working offers and can be a cost-effective asset to your business.

Contractor volumes can range from single placements to teams of multi-discipline engineers. SGS can accommodate mass recruitment for even the most ambitious timescales offering;

- Dedicated assignment support for contract employees
- Contract to permanent placements
- Local and international recruitment and relocation
- Contractor management

ABOUT THE JGC PROJECT

Over 80 qualified technical personnel were assigned across multiple JGC sites;

Qatar Saudi Arabia, Indonesia, Bahrain, China, Vietnam, Philippines, Algeria, Singapore, Venezuela & Australia.

SGS provide JGC with specialized technical personnel from civil phase through to start-up & commissioning;
