TECHNICAL STAFFING SERVICES – FINDING THE RIGHT PEOPLE FOR PETROBRAS

SGS technical staffing services began working with Petrobras in 2007 to support the Petróleo Brasileiro S/A, REGAP contract. We successfully provided a total of 1095 working days over the three year duration of the contract.

SGS were subsequently awarded an additional contract for the provision of global recruitment services for their upstream exploration and production in 2010.

We also ensured the safety and security of personnel through our travel and meet and greet services, whilst managing local payroll and tax compliance.
