

# IMPLEMENTING GMP, HACCP AND FSMA PREVENTIVE CONTROLS FOR HUMAN FOOD

TRAINING COURSE

SGS ACADEMY

## COURSE DESCRIPTION

The course provides the knowledge required to implement a combined GMP, HACCP and FSMA preventive controls system. Learners learn through a series of workshops the requirements of HACCP and FSMA preventive controls for human food, and how to successfully implement those requirements.

**FACE TO FACE: 3 days**

**VILT: 24 hours**

## LEARNING OBJECTIVES

Upon completion of this course, learners will be able to:

- Review good manufacturing practices under subpart B of 21 CFR Part 117
- Identify and control hazards
- Establish CCP and preventive controls management requirements
- Establish effective record keeping procedures to document the food safety system
- Create a working HACCP-food safety plan

## PRIOR KNOWLEDGE

It will benefit learners if they have knowledge of the following:

- Food safety systems

## AUDIENCE

Food safety managers, implementation teams, internal auditors, consultants, those seeking to meet both Preventive Controls and HACCP-based (e.g. GFSI-recognized) scheme requirements, and anyone interested in maintaining an integrated system compliant with FSMA Preventive Controls rule.

**SGS ACADEMY**

# COURSE CONTENT

- Overview & history of HACCP
- HACCP and preventive controls concepts
- Preliminary steps to hazard analysis
- Commonalities between HACCP & FSMA
- Biological, chemical, physical radiological & economically motivated hazards
- Developing flow diagrams
- Development of a combined HACCP-food safety plan through team exercises
- Quantitative/qualitative hazard analysis methods
- Good manufacturing practices
- Critical control points as preventive controls
- Preventive controls and CCP monitoring and management

## COURSE CERTIFICATION

Learners who but have been in attendance for the full duration of the course will be issued with a "Certificate of Attendance."
