

SGS SEED AND CROP UPDATES

FIELD TRIALS IN SOUTH AFRICA

SGS South Africa can now provide field trial services for agricultural inputs.

MANY NEW SERVICES IN KENYA

SGS Kenya recently started field trials and updated the PCPB residue testing capabilities in their Mombasa laboratory.

MARKET RESEARCH IN KAZAKHSTAN

SGS Kazakhstan has completed a panel market research study for the use of agrochemicals in grain production. More than 130 face-to-face interviews with farmers were completed.

SGS AUSTRALIA LABORATORY MOVES

This summer, SGS' Toowoomba laboratory has moved to Pinkenba, Brisbane, Queensland. This new facility is strategically located to service the growing needs of both our Australian and international customers. We provide a wide range of services, including:

- Grain Analysis.
- GMO Analysis.
- Heavy Metals Analysis.

- Seed Testing.
- Soil Testing.
- Feed Quality Analysis.
- Plant Tissue Testing.
- Water Analysis.
- Food nutrition panel labeling.
- Inorganic:
 - Anions (salts).
 - Metals.
- Method Development.
- R&D.
- Microbiological testing of water and food.
