“Verification statement”: document released by the Certification Body attesting the conformity of the Product Carbon Footprint and of the CFP Study report to the reference standard and to the reference technical standards (e.g. Product Categories Rules), and attesting that the CFP is reliable and free of material errors.

“CFP study report”: report that documents the CFP study, presents the CFP or partial CFP, and shows the decisions taken within the study.

“Errors”: errors, omissions present in the CFP study and related to the CFP quantification, to the life cycle or other processes description or to other requirements provided for by the standard.

“Material errors”: errors, omissions present in the CFP study that do not allow the validation of the results declared in the CFP study.

The organization makes the following documents available to SGS Italia:
- Copy of the CFP study report (s) to be verified for the product (s) being studied;
- CFP-PCR or in their absence reference PCR approved and registered by a Program Operator;
- Screenshot of the calculation model (main processes)
At the end of stage 1 an audit report is issued in which the audit team expresses an evaluation of the existence of the minimum conditions for the execution of phase 2

2. Stage 2: Evaluation (on-site audit): data verification, CFP model verification.
The Organization makes the following documents available to SGS Italia:
- All documentary evidence supporting the data used in the study;
- Calculation model (on software);
- Possible updates of CFP study report.
At the end of stage 2 1 an audit report is issued in which the audit team recommends or not the validation of the product CFP.

Based on these documents subjected to verification, SGS Italia assesses whether the requirements of the reference standard are taken into consideration (stage 1) and adequately met (stage 2).

1.5.3. In the event that SGS Italia deems that not all the requirements are met or that material errors are present, released non-Conformities are communicated (see paragraph 1.6) to the Organization during the closing meeting and formalized in the Audit Report. In the event that any non-conformities are reported, the organization undertakes to respond in the manner and within the time frame indicated in the audit report.

1.5.4. Following a positive technical review, a verification statement will be issued confirming the reliability and compliance of the CFP with the reference standards.
