SGS

Pioneering sustainable industry practices through advanced inspection and compliance solutions

WE ARE SGS

Wherever you are in the world, in whatever industry, you can rely on our international teams of experts to provide specialized solutions to make your business faster, simpler, and more efficient. Our global expertise means that you are assured of receiving the right services to the right compliance standards, in one country or on multiple continents.

SUSTAINABILITY AMBITIONS 2030

- **Environment:** Supporting the transition to a low carbon and climate resilient world through responsible resource use and effective waste management
- **Society:** Empowering equality, wellbeing and prosperity
- **Governance:** Enabling long-term value through secure, fair, transparent and responsible business practices

GLOBAL SERVICES TAILORED TO YOUR BUSINESS

- **Testing:** Ensure your projects, products, processes and operations meet and exceed quality and compliance standards with testing services and quality audits
- **Inspection:** Meet all relevant regulatory requirements across different regions and markets with our world-leading inspection services
- **Certification:** Mitigate risks, improve efficiency and compliance, and ensure best practice with audits and certification
- **Consultancy:** Get your goods to market smoothly and efficiently by ensuring compliance with market regulations and standards with our consultancy services
- **Training:** Keep up with the latest developments in standards, regulations and technology with high-quality training and development for every level

OUR FOCUS AREAS

Health & Nutrition

Natural Resources

Connectivity & Products

Business Assurance

SGS STATISTICS

2,600 Offices & laboratories worldwide

99,600 Employees

5 Business lines

BUSINESS PRINCIPLES

- **Integrity:** Making sure we build trust
- **Health & safety:** Making sure we establish safe and healthy workplaces and protect environment
- **Quality & professionalism:** Making sure we act and communicate responsibly
- **Respect:** Making sure we treat all people fairly
- **Sustainability:** Making sure we add long-term value to society
- **Leadership:** Making sure we work together and think ahead

Expert support from planning to execution and beyond

ENERGY AND INDUSTRY

Our expertise in conventional and renewable power ensures successful project delivery and regulatory compliance. Safety and minimal environmental impact are at the heart of our services.

BUILDING AND INFRASTRUCTURE

In construction, quality and performance are crucial, from roads and railways to high rises and houses. We ensure your projects meet safety, sustainability, and health expectations.

TRANSPORTATION

Whether by land, sea, or air, the transportation industry must adhere to strict regulations. We ensure automotive, rail, marine, and supply chain sectors meet high standards of safety, reliability, and compliance.

OIL AND GAS

From extracting, refining, transporting or marketing oil, gas or other hydrocarbons, SGS offers comprehensive services to support your operations. We help manage greenhouse gas emissions and assist in transitioning to renewable energy.

MANUFACTURING

Our flexible, digital service platform supports manufacturing and processing industries in achieving sustainable development and production goals. We ensure quality, sustainability, safety, and sound financial management.

**GEOTECHNICAL &
GEOPHYSICAL SERVICES**

Our services

ENGINEERING

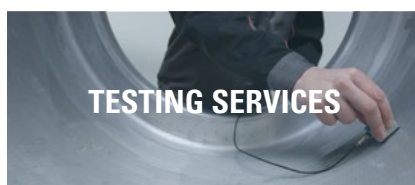

- Feasibility, Owner Engineers
- Pre-Design Engineering
- Compliance to the Local Regulations
- Value Engineering
- Project Management
- Technical consultancy

INDUSTRIAL INSPECTION

- Third Party Inspection (Worldwide)
- Manufacturing Surveillance
- Vendor Inspection & Audits
- In-service and Periodical Inspections
- Civil & Structural Assessments
- Equipment Inspection (Mechanical & Electrical)
- Expediting Services
- Loading & Unloading Survey
- Pre-shipment Inspection
- Site QAQC Inspection and Supervision
- Corrosion Inspection
- Painting & Coating Inspection
- Welding Inspection
- WPS/ PQR & Welder Qualification
- Visual & Dimensional Inspection
- Verticality & Settlement Survey
- Witness of Performance Test/ FAT
- Commissioning Inspection/ SAT
- Lifting Equipment Inspection
- Technical Staffing
- Technical Due Diligence
- Owners/ Lender's Engineer
- Construction Supervision

ASSET INTEGRITY MANAGEMENT PROGRAMS

- Risk Based Inspection
- Fit For Services
- Remaining Life Assessment
- Tank & Pressure Vessel Inspections
- Pipe & Pipeline Integrity Inspection
- Plant Assessment
- Pipeline Inspection
- Shutdown service
- Building & Infrastructure Assessment

CONVENTIONAL NDT

- Ultrasonic Flaw Detection
- Ultrasonic Thickness Gauging
- Radiographic Testing and Interpretation
- Magnetic Particle Inspection
- Dye Penetrant Testing
- Holiday Detection
- Checking or Residual Magnetism

ADVANCED NDT

- Time of Flight Diffraction (ToFD)
- Long Range Ultrasonic Testing (LRUT)
- Eddy Current (EC)
- Phased Array Ultrasonic Testing (PAUT)
- Magnetic Flux Leakage (MFL)
- Internal Rotating Inspection System (IRS)
- Tubular inspections (ECT/MFL/ IRIS/NFT)
- Corrosion Under Pipe Supports
- Manual and Automated Corrosion Mapping
- Computed Radiography
- Hot Hydrogen Attack (HHA) survey
- Hydrogen Induced Cracking (HIC) assessment
- Advanced Ultrasonic (AUT) Pipeline Inspection
- Unmanned Piloted Systems (Drones/ ROV)
- Bathymetric Survey
- Topographical and Ground Survey
- Cathodic Protection
- Positive Material Identification (PMI)
- Infrared Thermography

OIL, GAS AND CHEMICALS SERVICES

- Sample Management & Dispatch
- Import & Export Shipment Inspection
- Oil Blending
- Static & Dynamic Measurements
- Measurement & Calibration
- Oil Condition Monitoring & Other Laboratory Tests
- Leak detection
- Fuel Quality Assurance
- Fuel Station Dispenser Calibration
- Fuel Station Tank Calibration
- Fuel Station Audit & Compliance
- Well Testing Services
- Cased Hole Services
- Reservoir Fluid Analysis
- Early Production Facilities

ENVIRONMENTAL, HEALTH & SAFETY SERVICES

LABORATORY SERVICES

- Water, Waste and Soil Analysis
- Air Sample Analysis
- Marine sediment & Marine Water Analysis
- Asbestos Analysis
- Microbiological Analysis
- Dioxin & Furans Analysis
- PFAS & Microplastic Analysis

FIELD SERVICES

- Stack Emission Monitoring and Analysis
- Ambient Air Monitoring and Analysis
- Indoor Environmental Quality Assessment
- Industrial Hygiene Monitoring
- Fugitive Emission Testing
- Air Dispersion Modelling
- Noise Contour Modelling
- Asbestos Surveys
- Leak Detection and Repair Program (LDAR)

ECOLOGICAL & MARINE OCEANOGRAPHY SERVICES

- Terrestrial Ecology Surveys
- Marine Ecology Surveys
- Bathymetric Surveys
- ADCP Deployment for Current Profiling

HSE & PROCESS SAFETY SERVICES

- Environmental Impact Assessment
- GHG Verifications
- Occupational Health & Safety
- Safety Integrity Level Studies
- Quantitative Risk Assessments (QRA)
- HAZID, HAZOP, FMEA Reviews
- Risk Assessment & Evaluation
- Emergency Response Plans
- HSE Training and Audits
- Hazardous Area Classification & Control

GEOTECHNICAL & GEOPHYSICAL SERVICES

- Borehole Drilling (Onshore/offshore)
- Geotechnical & Geophysical Surveys
- Geotechnical Laboratory Analysis
- Soil Contamination Surveys
