SGS Audit Performance Manager

ENSURE COMPLIANCE, REDUCE RISK AND ENHANCE SUPPLY CHAIN QUALITY

WHAT IS SGS AUDIT PERFORMANCE MANAGER?

Audit Performance Manager empowers you to move beyond audit execution toward continual improvement. The industry-leading tool transforms audit results into actionable intelligence, helping you strengthen compliance, enhance operational performance and reduce risk across your entire supply chain.

Audit Performance Manager provides clear, shareable performance views that support internal leadership reporting, customer confidence and regulatory expectations, without manual reporting effort.

We combine global audit expertise across sectors and geographies, and consistent methodology and technical oversight with Audit Performance Manager, our enterprise-grade digital audit platform, powered by CMX1, and compliant with ISO/IEC 27001, SOC 2 and PCI DSS.

The cutting-edge tool consolidates audit findings, scores and trends into a single, real-time performance view, giving leaders clarity on where risks lie, how performance is evolving and where to act first. Available in multiple languages, on desktop and mobile, whether online or offline, it helps you:

- Manage the entire audit life cycle
- Centralize all audit data into one global system
- Transform findings into meaningful, actionable insights
- Track compliance, risk and performance in real time

WHO IS IT FOR?

Any organization aiming to win market share. It is for those who require customized audits, a tailored assessment to meet particular needs, goals and risks, going beyond standard certification and checklists.

KEY BENEFITS

- Improve compliance through consistent execution
- Faster corrective action closure with automated workflows
- Early risk detection via trend and KPI monitoring
- Objective benchmarking across sites, suppliers or regions
- Audit efficiency gains through streamlined processes
- Improve brand reputation and supplier engagement while saving money

WHY SGS?

Digital is the future, but it alone is not enough – expertise matters. As the world's leading testing, inspection and certification company, we have performed customized audits for over half a century.

Combining our global network of skilled auditors, industry and regulatory expertise, and centralized technical review with our integrated digital audit platform, we provide unparalleled precision and visibility, leading to greater control and confidence. By partnering with us, you gain more than compliance – you achieve performance management and smarter audit programs that deliver measurable return on investment (ROI). This strengthens consumer trust, improves operational efficiency and aligns with your supply chain partners' goals, setting you apart in an increasingly competitive market.

Our comprehensive audit portfolio covers social, quality, environmental, security and due diligence across numerous sectors, from food and fast-moving consumer goods to retail and factories.
