

Malaysia accounts for 39% of world palm oil production and 44% of world exports

HOW CAN YOU DELIVER CONFIDENCE TO YOUR CUSTOMER?

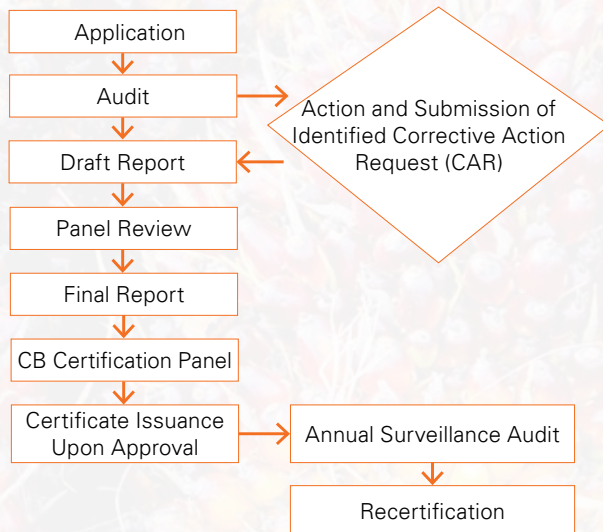

ENHANCE YOUR CREDIBILITY WITH MSPO SUPPLY CHAIN CERTIFICATION STANDARD (SCCS)

BE THE BENCHMARK

The Malaysian Sustainable Palm Oil Supply Chain Certification Standard (MSPO SCCS) ensures consumers that the palm oil they purchase and use comes from sustainably managed oil palm planted areas. The standard applies to the entire supply chain, from raw materials through processing, manufacturing, supply and/or export of MSPO certified palm oil and palm oil-based products.

For organisations to comply with MSPO SCCS, traceability process can be tracked by mass balance or segregation method. This assures that the product origin and its quantity can be uniquely identified at every stage of the palm oil supply chain.

CERTIFICATION PROCEDURE OF MSPO SUPPLY CHAIN CERTIFICATION SCHEME

Certification cycle is typically 5 years.

THE BENEFITS OF MSPO SCCS

- Assurance of credibility of the supply chain
- Identify and improve traceability of end products
- Avoid product mislabeling or recalls
- Expand market opportunities for national and international consumption
- Demonstrate commitment in environmental responsibility
- Compliance to Malaysian legal requirements and ratified international agreements and conventions

RELATED SERVICES
