

SGS Academy Training Solutions

CREATING FUTURE INDUSTRY LEADERS & ENHANCING
CONTINUOUS PROFESSIONAL DEVELOPMENT

SGS

Training is often undervalued

Quality training will help you to remain competitive. It enables you to keep up with the latest industry practices and ever-changing technical standards, as well as comply with legal and regulatory obligations.

Quality is key

However, maintaining a consistent level of learning across your organization can be complex. That is why you need to ensure that all personnel, local and global, receive consistent and high-quality training.

**ONLY
1%**

Did you know that only 1% of a typical week is focused on training and development?

Transformation through training

SGS Academy provides you with the skills and knowledge needed to transform your people and business.

Numbers driving our mission

An organization's greatest asset is its workforce. Unlocking their full potential is key to creating a successful business. Employees must receive training that promotes continuous personal and professional development.

7 OUT OF 10 people said that training and development opportunities influence their decision to stay

87% of millennials said that professional development or career growth opportunities are very important

A THIRD of training hours were delivered with a combination of training methodologies

60% of time spent on training can be saved by automation and self-training through an LMS

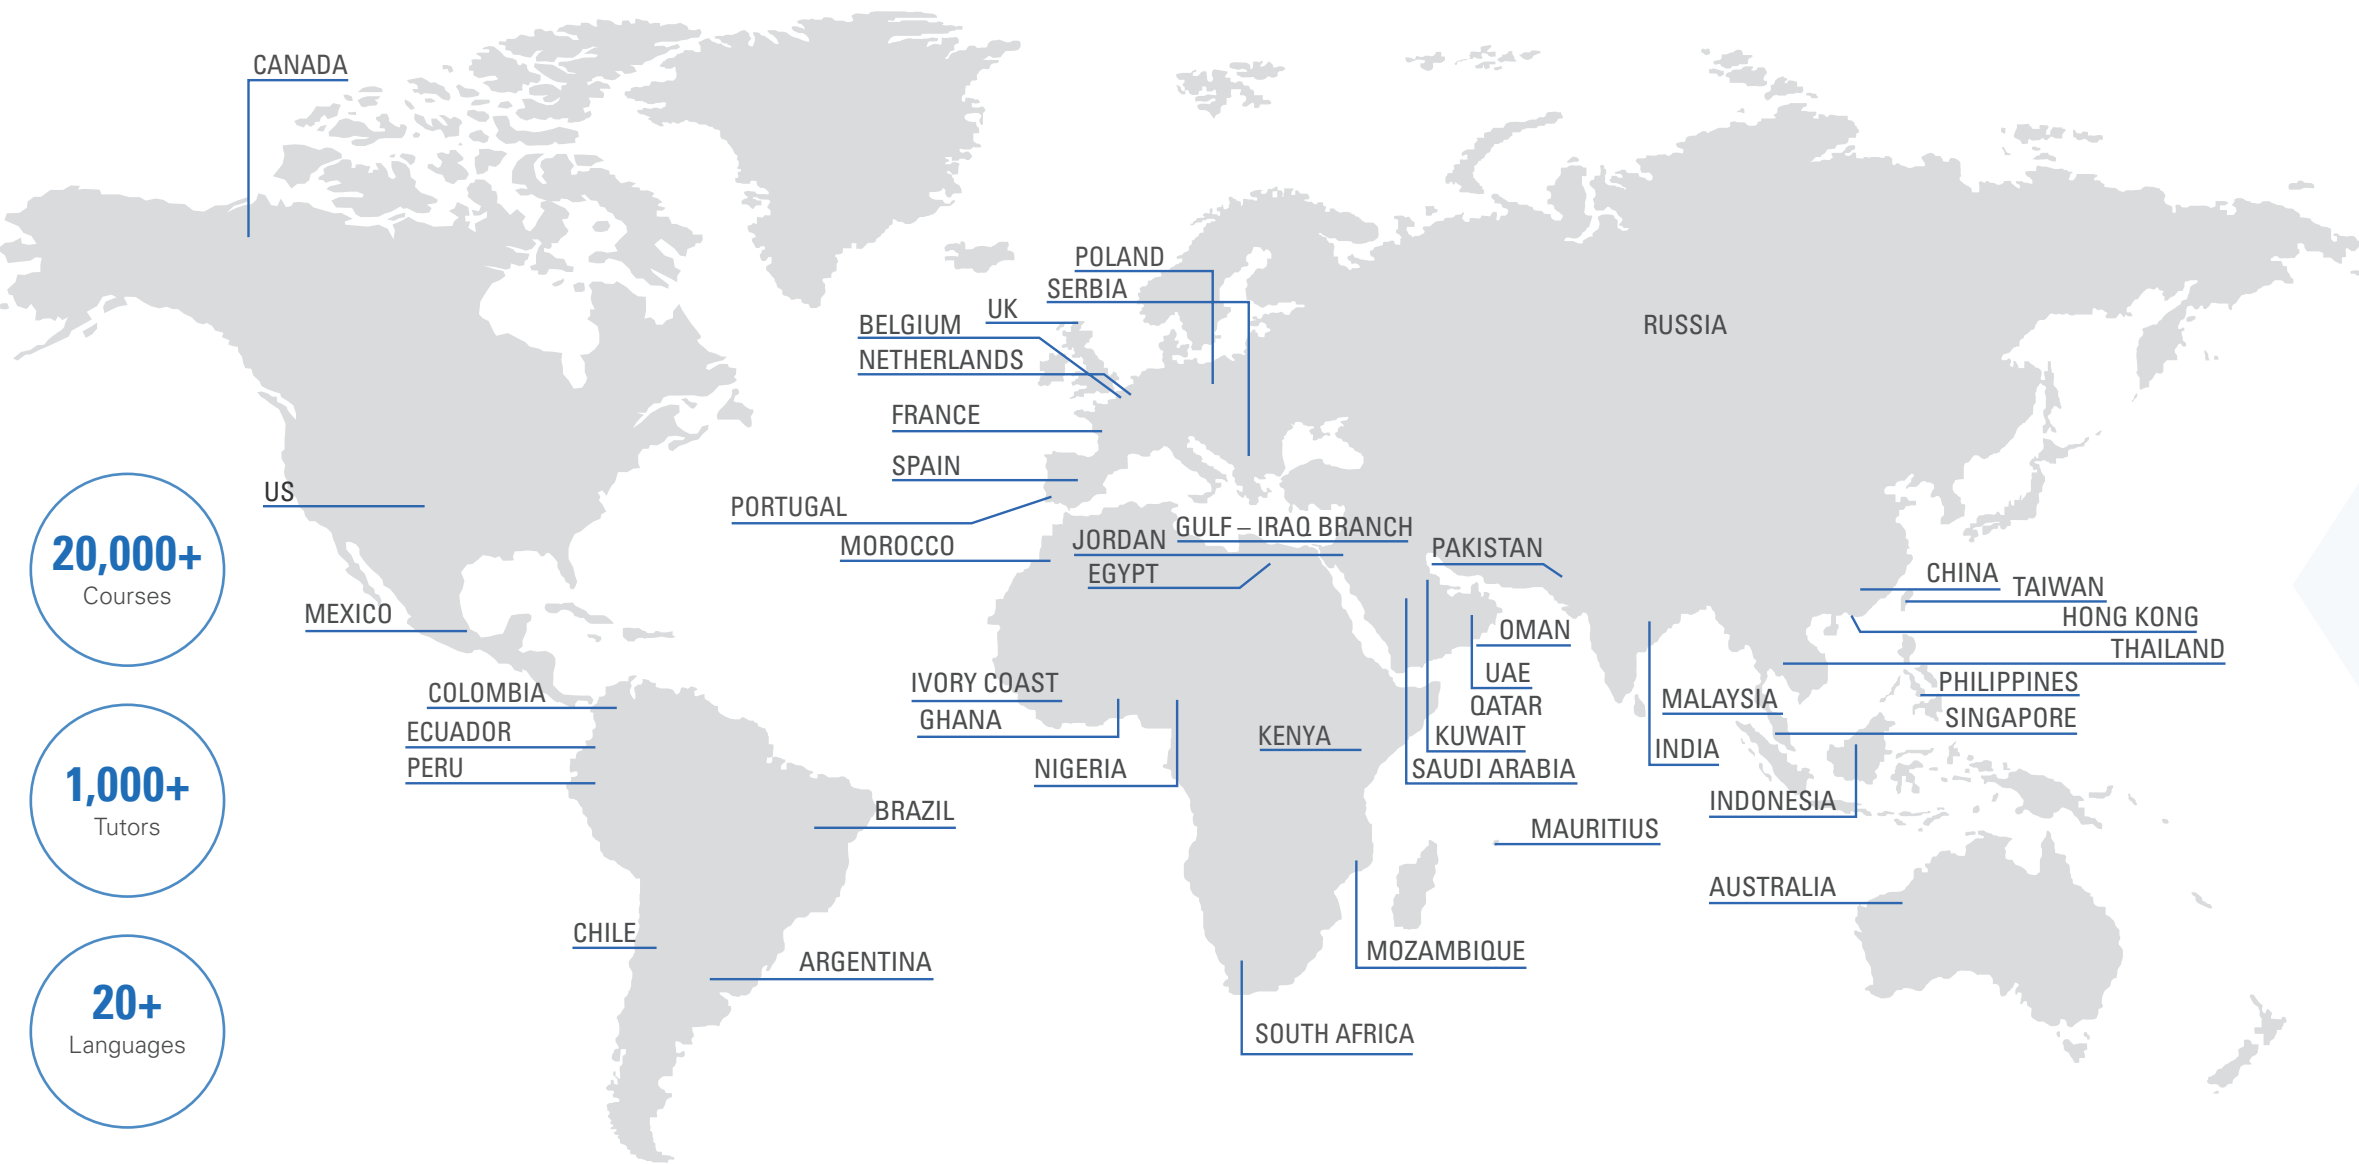

24% increased profit margins were experienced by organizations that offered training

Global reach – local expertise

We operate in over 100 countries, provide in excess of 20,000 courses, in more than 20 languages, all delivered by over 1,000 tutors.

Whatever your industry, wherever you operate, SGS Academy has a training solution to suit.

Meet your evolving needs

We offer face-to-face, virtual, eLearning and blended courses, as well as customized training to meet your evolving needs.

Training methodologies

Face-to-face training

eLearning

Virtual

Blended

Standards-based training

We provide ISO management systems training for various levels of employee, such as introduction, internal, lead auditor and implementation courses. We also offer other technical training subjects to improve business processes.

Industry-based training

We offer industry-specific workforce development solutions across many areas, such as food, medical, healthcare, information security and automotive.

Subject area training

Our training content covers domain knowledge and skills in specific areas, such as business improvement, social responsibility and compliance.

A data-centric approach

As the global leader in certification, our vast dataset of industry pain points spans over 39 industries across the globe and over 200,000 customers, allowing us to identify gaps and develop tailored learning solutions.

Everyone is unique

People learn in different ways. It makes practical and economic sense to find adaptable, intuitive training solutions that can be customized to meet organizational and individual expectations. Training must focus on relevant and memorable content.

Our data-centric approach will meet your needs and includes:

Tailored learning

Utilizing your existing audit data or by conducting a gap assessment, we can identify issues and develop tailored training to eliminate all gaps.

Industry training solutions

From an overall industry analysis of our dataset, we know each industry's top pain points and can bundle existing training to solve specific industry needs.

For learners, for management

SGS Academy's customized Learning Management System (LMS) is fully integrated with SGS.com's Global Training Schedule.

Our LMS provides employees and management with online access to relevant training and continuous professional development. It makes learning easier to organize, record and undertake consistently at a global level.

For learners

Intuitive

Uses recognizable online methods to enhance training

Effective

Uses client data to target relevant courses, promoting continuous professional development

Tracked

All training is recorded and accessible at any time

Organized

Schedules are in one place to simplify planning. Changes to schedules, course definitions, etc. are instant

Certificates

Direct access to printable documentation

Control

The learner can book courses, allowing control over their schedule

For management

Reports

Many relevant reports are available in a suitable format

Invoicing

Complete control over invoicing, allowing budget supervision

Resource management

Total visibility of all aspects of staff training

SGS business principles

Health, Safety and Environment

Making sure we establish safe and healthy workplaces and protect the environment

Quality and Professionalism

Making sure we act and communicate responsibly

Sustainability

Making sure we add long-term value to society

Integrity

Making sure we build trust

Respect

Making sure we treat all people fairly

Leadership

Making sure we work together and think ahead
