ISO/IEC 27001:2022 Information Security, Cybersecurity and Privacy Protection – Information Security Management Systems (ISMS) Transition Training Course

SGS

COURSE DESCRIPTION

The purpose of this course is to provide you with an understanding of the differences between ISO/IEC 27001:2013 and ISO/IEC 27001:2022, and helps you explore how to assess your present ISMS with regard to the changes.

DURATION:	1 Day 8 Hours	DELIVERY:	Face to Face VILT
ACCREDITATION:	SGS	LANGUAGE:	English

"

UNDERSTAND ISO/IEC 27001:2022 REQUIREMENTS

"

LEARNING OBJECTIVES

Upon completion of this course, learners will be able to:

- Describe and apply the changes of the ISO/IEC 27001:2022 Management Systems Requirements.
- Understand and define the ISO/IEC 27001:2022 main changes to clauses 5 to 8.
- Understand ISO/IEC 27001:2022 updates to the Annex A controls, aligned to ISO/IEC 27002:2022.
- Understand the updates of ISMS documentation required, including new control references in the risk assessment and Statement of Applicability (SoA).

You will need to demonstrate acceptable performance in each of these areas in order to complete the course successfully.

AUDIENCE

Before starting the course, you are expected to have the following knowledge:

- An understanding of the Plan-Do-Check-Act (PDCA) cycle.
- A basic knowledge of the concepts of information security management and an understanding of commonly used information security management terms and definitions, as given in ISO/IEC 27000.
