SGS ACADEMY – WELCOME

FURTHER EXCELLENCE

SGS ACADEMY IS A WORLDWIDE NETWORK OF CENTRES OF EXCELLENCE THAT MEET GLOBAL AND LOCAL NEEDS

Welcome to the SGS Academy courses overview. Through our broad selection of high quality professional training, you can strengthen your workforce and increase your productivity by ensuring everyone has the very latest knowledge. Our training programs cover a wide range of topics related to areas such as quality, performance, health and safety and accredited training for auditor development.

We offer a variety of different options in order for you to complete your course. Based on your individual needs, you can opt for a:

PUBLIC TRAINING SESSION WITH COLLEAGUES

These courses are available on pre-determined dates and set locations. The material delivered on these courses is generic but, where appropriate, examples will always be from both service and manufacturing industries. This type of learning provides opportunity to gain other organizations' point of view.

IN-HOUSE TRAINING SESSION AT YOUR FACILITY

Running a course at your premises allows you to shape the message and style of the presentation to suit the individual culture of your organization. It is often the most convenient and the most cost-effective solution if you wish to train a number of your staff, or when confidentiality is an issue. Training will be provided at a location of your choice. Call us for a no obligation quote.

SGS ACADEMY – EXCEEDING EXPECTATIONS

We value feedback from our participants and ensure their needs are considered. In order to maintain this level of service and improve it:

- Our trainings are evaluated during the session where participants can give their point of view and fill in an evaluation form. Any relevant suggestion is implemented accordingly.
- An evaluation is also performed by our team after each training session. We follow up with our participants to assess the achievements and implementation of their action plan.
