HOW CAN YOU PROTECT YOUR WORKFORCE?
ENHANCE OCCUPATIONAL HEALTH & SAFETY WITH ISO 45001

THE BENEFITS OF ISO 45001
ISO 45001 enables organizations to put in place an OH&S management system, enabling them to manage their OH&S risks and improve performance by developing and implementing effective policies and objectives.

KEY POTENTIAL BENEFITS OF ISO 45001 INCLUDE:
- Peace of mind that your organization is operating under an internationally approved framework
- Enhanced value and assurance to customers in the supply chain
- Improved implementation, integration and maintenance of your OH&S systems
- Closer involvement from all levels of your organization

ISO 45001 is the world’s first International Standard for occupational health and safety (OH&S). It will promote a safe and healthy working environment by providing a framework that allows organizations to identify and reduce their OH&S risks, reduce potential for workplace accidents and illnesses and improve legislative compliance.

IT IMPROVES OH&S PERFORMANCE BY:

- Developing and implementing OH&S policy and objectives
- Implementing processes that manage risks, opportunities and compliance with legal and other requirements
- Identifying operational hazards and eliminating or controlling them
- Increase overall risk awareness
- Establishing procedures for monitoring and measuring processes to facilitate continuous improvement
BECOMING ISO 45001 CERTIFIED

Certification to ISO 45001 can be a useful tool to demonstrate that you meet its criteria. If you are already certified to OHSAS 18001 you will already have most of the necessary tools and systems in place to implement ISO 45001:

HAVE YOU REVIEWED THE CHANGES/ADDITIONS OF ISO 45001 REQUIREMENTS?

- Have you reviewed the changes/additions of ISO 45001 requirements?
- Has your organization been certified to OHSAS 18001?
- Are you ready to start the migration/certification process?
- Were large gaps identified?
- Have you identified or qualified your team of Health and Safety auditors?
- Have you raised awareness of your employees on the changes of ISO 45001?
- Have you developed an implementation plan to cover the identified gaps?
- Have you asked SGS for a gap analysis?
