

SGS FLEET INSPECTION SERVICES

With extensive vehicle inspection experience and a staff of professional and knowledgeable field inspectors based throughout North America, SGS can provide various services for your rolling stock. As an industry leader, our size, scale and industry experience can work to your advantage. By partnering with SGS, you'll be able to establish the true condition of each vehicle while reassuring the purchaser that a trusted, independent third-party inspection has been conducted.

THE PROCESS

Our processes are driven by our proven best practices and your needs.

- We will take the time to understand your objectives and build a customized electronic platform that captures and scores key elements of the inspection process
- Our proprietary software platform can be loaded with guidelines unique to your program
- Our customer service center, dispatch team and field-based inspectors ensure your inspections are performed in a professional and timely manner
- Data will be transmitted in real time, ensuring you see your inspection results quickly and efficiently
- We can build custom reporting templates to ensure you have access to the data you need, when you need it

CUSTOMIZED SOFTWARE PLATFORM

SGS software is developed with client specific guidelines to ensure the accuracy of each inspection. This, combined with state-of-the-art collision estimate guide pricing, will be loaded into the software resulting in pinpoint accuracy of labor times and replacement part pricing. Integrated with all of the major in-line auction portals, SGS can send vehicle inspection results upon completion.

- Accurately record all damage conditions
- Provide post-maintenance inspections to validate services and safety
- Identify and disclose all cosmetic and structural damage and repairs
- Verify all option content
- Perform electronic function tests
- Take high quality digital images to display basic vehicle attributes and damage conditions to further facilitate on-line sales
- Provide a complete suite of dashboard reports providing highly detailed program information to your operational staff as well as summary reporting to management

CONTACT US

The logo for SGS, consisting of the letters 'SGS' in a bold, sans-serif font. A vertical orange line is positioned to the right of the letters, and a horizontal orange line is positioned below the letters, forming an L-shape around the text.

SGS A GLOBAL INDUSTRY LEADER

As the world's leading inspection, verification, testing and certification company, SGS has over 95,000 employees that span 11 major industries representing over \$6.3 billion in revenue. Within the automotive industry, SGS provides coverage throughout North America of employee-based resources to perform vehicle inspections and consulting services for manufacturers, fleet providers, and rental car agencies. The size and scope of our organization allows us to remain flexible with regards to the scale of program and speed to market.

WHY CHOOSE SGS?

Working with a trusted industry leader with a global presence allows you to create a tailored program that meets your needs, whether that's a full suite of services, or a quick custom solution.

- Understanding the nuances of your evolving business allows us to act as your independent, unbiased partner
- Rapid start-up of custom-fit programs due to our extensive industry background and refined best practices
- Resources to respond in a timely manner to nationwide requests
- Extensive automotive and dealership experience gives our consultants confidence in delivering inspection and dealers network solutions in a timely professional manner

SGS ADDITIONAL SERVICES

With experience in many types of inspection and verification services, we are able to build custom solutions based on your current needs. SGS can help you with shop audits, training, title handling and more. For a full list of our capabilities, visit www.sgsgroup.us.com/transportation.

TRAINING

Through expert trainers that are experienced practitioners in their fields, our online and in-house custom training programs move beyond theory, giving you valuable real-world insights. As a result, you can trust us to provide high-quality, consistent training and development at every level of your organization.

SHOP AUDITS

The safety of your vehicles begins with the safety of your shop. Clean, safe, and compliant service bays allow your technicians to be better focused on the condition of each vehicle. As experts in service center safety, SGS can audit your shops for you.

- Validate shop conditions
- Inspect lifts and other equipment
- Perform hazardous material handling inspections
- Verify OSHA compliance

ASSET MANAGEMENT

SGS's asset management services provide secure protection and management of your titles, keys and other documents. With our state-of-the-art processing system, we are able to both reduce our customers' title-related costs while improving service and quality.

- Advanced online tracking and storage process
- Comprehensive, turnkey approach
- Convenient online information management and access
