

The background of the entire page is a photograph of the Minaret of Peace in Islamabad, Pakistan, at night. The monument is illuminated with warm golden lights, highlighting its intricate carvings and the large, arched openings. The sky is a deep blue. In the foreground, the polished floor of the plaza reflects the lights from the monument. Several people are visible walking around the base of the monument.

## THE CERTIFICATION AND BUSINESS ENHANCEMENT APPROACH

Organizations today are met with a variety of operational and business challenges. External forces, like competitors and regulatory bodies, also add a secondary level of pressures that must be anticipated. Additionally, both B2B and B2C firms are experiencing a large influx of customer data, across multiple touchpoints. The dividing factor between those who are successful and those who are not, is how they analyze and use that data for business enhancement. At SGS, we have developed a variety of solutions to not only meet these needs but establish more efficient and profitable ways of working. Using our 140 years of experience and operational data set, we partner with clients to gain intelligent insights into their current business functions while simultaneously strategizing for the future. To meet the needs of our current customers and provide effective and modern solutions to current and future business issues, we offer three pillars of insights driven, customizable products and solutions.

## THE BUSINESS ENHANCEMENT PLATFORM

For decades, SGS has been known as the global leader in certification, working with clients in virtually any sector. This deep and broad experience in quality control management, regulatory compliance, and training has resulted in a staggering array of data points across industries. Utilizing this dataset, we have evolved our service offerings to include Business Enhancement—the process of transformation that improves or increases the value of an organization's people, processes, product or service. Our Business Enhancement solutions offer the most up to date, practical insights to help you achieve your goals and ultimately BE the Benchmark.

- Deliver innovative solutions and services that enhance businesses

We make a difference to individuals, teams and businesses, nurturing talent and enabling continuous organizational progression. Our specialist partner with course participants, identifying improvement objectives and supporting the professional journey. Visit [www.sgsgroup.pk](http://www.sgsgroup.pk)

## OUR TRAINING

Our experts deliver high quality professional training across a wide range of subjects and industries, providing detailed information and guidance relevant to all stages of your value chain. Our courses fall into three broad areas:

### MANAGEMENT SYSTEMS AND STANDARDS TRAINING

SGS Academy training gives you a complete understanding of the essential requirements of management systems and standards. Whether you are a lead auditor or executive who is interested in a particular ISO Standard or management system, we deliver courses that suit all audiences from foundation training, through accredited Lead Auditor courses that meet Certification Body training criteria requirements.

### MANAGEMENT DEVELOPMENT TRAINING

SGS Academy offers training courses that are focused on developing managerial and leadership excellence. Delivered by experts who work as professional managers and leaders who implemented strategies and tools against the needs of the market, our facilitators provide leading edge management and leadership thinking, training and development. These courses include Lean Six Sigma Courses, Project Management Courses and Human Resource Management Courses that will guide you in developing a structured approach to drive improvement and transformation in your organization.

## DELIVERY METHODS

We all approach training in different ways and have to fit in our professional development around our day-to-day responsibilities. With this in mind, our training solutions are offered in a variety of delivery formats so that you can choose those that are best suited to your individual requirements and the needs of your organization. Our experts deliver face-to-face training in the form of public courses where you can join your industry peers and through in-house courses designed to meet the specific needs of your organization. If you prefer the flexibility of online training, we also offer SGS Academy e-learning solutions and virtual learning.

### PUBLIC COURSES

Joining our face-to-face public courses gives you the opportunity to meet with colleagues from related industries and discuss course topics with others who have identified the same types of issues. As a result, you can share and gain best practice knowledge, not only from our SGS experts, but also from those in similar organizational roles. Throughout all discussions our experienced and knowledgeable tutors help you to evaluate your insights, so you are subsequently able to make considered decisions when approaching strategic changes within your business. Public courses are on fixed dates; please refer to our course calendar for more information.

### ELEARNING COURSES

If you are looking for a flexible learning solution that you or those in your organization can fit around your schedules, our eLearning training offers an ideal option. Delivered quickly and effectively through our learning management system or yours, our global eLearning courses are easily accessible. Our experts have prepared a portfolio of eLearning courses for your immediate use, or can work with you to prepare eLearning courses tailored to your specific needs.

### IN-HOUSE COURSES

Running a standard or customized course at your premises allows you to shape the message and style of the presentation to suit the culture of your organization. It is the most convenient and cost-effective solution if you wish to train several staff in the same location, or when confidentiality is an issue. Once we have agreed the dates and location for your training course, our experts work with you to identify and evaluate your learning objectives and to customize the course content to ensure they are met.
