

ISO 14001:2026 Environmental Management Systems (EMS) Implementation Training Course

COURSE DESCRIPTION

The purpose of this course is to provide learners who have an existing, basic knowledge of, or experience in, environmental management with an understanding of the management systems approach and the requirements of ISO 14001:2026, and to provide a basis for learners who wish to implement an Environmental Management System.

DURATION: 2 Days
16 Hours

DELIVERY: Face to Face
VILT

ACCREDITATION: SGS

LANGUAGE: English

LEARNING OBJECTIVES

Upon completion of this course, learners will be able to implement an Environmental Management System (EMS) through:

- Gaining commitment and support from senior management.
- Engaging the whole business – training and communicating requirements.
- Comparing the existing management systems with ISO requirements.
- Establishing an implementation team to address identified performance gaps.
- Conducting internal audits and encouraging staff to train as Internal Auditors.
- Regularly reviewing the management system and continually improving it.

Learners will need to demonstrate acceptable performance in these areas to complete the course successfully.

COURSE CONTENT

- **SESSION ONE:** Benefits and Importance of Certification
- **SESSION TWO:** Analyse the Current Business State
- **SESSION THREE:** Create the Implementation Plan
- **SESSION FOUR:** Design and Document the System
- **SESSION FIVE:** Selecting a Certification Body
