

BUILDING MATERIALS AND BUILDING RAW MATERIALS

ASSESSMENT GUIDELINE	TITLE	CERTIFICATION
BRL 2307-1	Incinerator Bottom Ash Aggregate for unbound civil engineering applications	KOMO® product certificate
BRL 2307-2	Incinerator Bottom Ash for unbound civil engineering applications	NL BSB® product certificate
BRL 2506-1	Recycled Aggregates – Technical Assessment	KOMO® product certificate
BRL 2506-2	Recycled Aggregates – Environmental impact assessment	NL BSB® product certificate
BRL 2507	Incinerator Bottom Ash Aggregate as a concrete aggregate	KOMO® product certificate
BRL 3201-1	Technical repair and protection of concrete	KOMO® product certificate
BRL 3201-2	Structural repair and reinforcement of concrete	NL BSB® product certificate
BRL 9313	Sand from dynamic extraction areas	NL BSB® product certificate
BRL 9320	Bituminous mixtures	NL BSB® product certificate
BRL 9321	Environmental quality of industrial sand and (crushed) industrial gravel	NL BSB® product certificate
BRL 9322	Mixtures of cement-bound mineral residues	NL BSB® product certificate
BRL 9324	Environmental quality of quarry stone in unbound applications	NL BSB® product certificate
BRL 9345	Slurries and mixtures for use in civil engineering works	NL BSB® product certificate
BRL 9348	Environmental quality of cement-bound mortars produced by mobile volumetric batching and mixing plants using uncalibrated weighing equipment	NL BSB® product certificate
BRL 9349	Environmental quality of the <500 µm fraction released during the processing of primary stony materials	NL BSB® product certificate
BRL ERM 4000	Maintenance and restoration of monuments	ERM process certificate
