Energy  
Industrial

### ■ Safety:

- More than 4 years and 10,000,000 hours without accidents
- Proud sponsors of MINSEG (no fatalities in mining)

### ■ Leaders:

- Leaders in energy engineering consulting services in Chile

### ■ Growth:

- Sustained throughout the company's history

### ■ Multi-sector:

- Energy – Transport – Mining - Water Resources – Urban Planning – Port– Oil-Industrial – Waste Management

- Enables entrance into growing infrastructure, technical inspection and construction supervision/consultant engineering market
- Provides necessary accreditations, experience and expertise to participate in major public and private tenders
- Facilitates integration of global SGS services currently not delivered in Chile, e.g. materials testing
- Allows us to diversify current SGS Chile service portfolio
- Enables us to compete with BV, Applus and ITS
- Service portfolio complements ETSA (Colombia) and ENGER (Brazil)
