

GUIDE TO IECEX SERVICE FACILITY CERTIFICATION AS PER OD313-5

Ex repair service facility certification, giving your service facility a competitive advantage in the marketplace.

IECEX SERVICE FACILITY CERTIFICATION SCHEME

CERTIFICATION FOR SERVICE FACILITIES IN THE EX INDUSTRY

SGS Baseefa is the world's leading organisation for certifying IECEX Service Facilities for the Repair and Overhaul of Ex equipment for use in potentially explosive atmospheres, having issued more internationally acceptable certificates within the IECEX scheme than any other body.

HOW THE CERTIFICATION PROCESS WORKS

The IECEX Scheme was developed with full participation from SGS Baseefa. It is applicable to facilities working with all types of ATEX/IECEX and other certified Ex equipment including mechanical equipment.

Assessments are carried out against IEC 60079-19, in accordance with Scheme rules IECEX 03 and Operational Documents OD313-5, OD314-5 and OD315-5.

Other SGS Baseefa services include:

- Product certification
- Competence assessment
- ATEX QAN and IECEX QAR
- Training and technical advice
