## 1. INTRODUCTION

This report presents the results of the certification evaluation at **Pamol (Estates) Sabah Sdn Bhd** in **KM122, Jalan Sandakan-Telupid, P.O. Box 203, 90702, Sandakan, Sabah, Malaysia** on **06- 10 November 2017** by SGS (M) Sdn

---

Bhd. The purpose was to assess the operations of **Pamol (Estates) Sabah Sdn Bhd** against the requirements of the Malaysia Sustainable Palm Oil (MSPO) certifications.

IOI Corporation Berhad listed on the Main Market of Bursa Malaysia Securities Berhad, is a leading global integrated and sustainable palm oil player. Employing more than 30,000 people in 15 countries, it is a fully integrated company that undertakes the plantation and resource-based manufacturing businesses. Its plantation business covers Malaysia and Indonesia with a land bank of more than 230,000 hectares, making it one of the largest plantation owners in the industry. Its downstream resource-based manufacturing business includes refining of palm oil as well as manufacturing of oleochemical and specialty oils and fats, with strong presence in Asia, Europe and USA.

IOI Plantation Berhad has 90 estates and the total oil planted area as at the end of the financial year under review stood at 179,271 hectares. Approximately 64% of the IOI's oil palm plantation holdings are in East Malaysia, 24% in Peninsular Malaysia and the remaining 12% in Indonesia. Pamol (Estates) Sabah Sdn Bhd is one of subsidiary in IOI Plantation in Sabah Division located at Sandakan, Sabah, Malaysia.

IOI Plantation produce are principally processed by its 15 palm oil mills with an annual milling capacity of approximately 4,750,000 tonnes of fresh fruit bunches (FFB).

Over the years, IOI Plantation has been able to sustain as one of the most cost-efficient procedures in the industry due to management's emphasis on continuous improvement in efficiency and productivity of its operations. Achievement in productivity are the result of years of concerted effort and commitment to good plantation management practices.
