

# Worldwide Responsible Accredited Production (WRAP)

## DEMONSTRATE LAWFUL, HUMANE AND ETHICAL MANUFACTURING PRACTICES

### WHAT IS WRAP?

Established in 2000, WRAP is an independent, not-for-profit organization dedicated to the promotion and certification of lawful, humane and ethical manufacturing across the world. WRAP is the largest independent certification program for sewn goods, apparel, textiles and related industries.

WRAP is supported by over 20 international trade associations, including the International Apparel Federation (IAF), which continues to represent more national associations and individual companies.

### WHY IS WRAP IMPORTANT?

WRAP principles cover basic standards that address labor practices, factory conditions and environmental and customs compliance. There are 12 principles:

- Compliance with laws and workplace regulations
- Prohibition of forced labor
- Prohibition of child labor
- Prohibition of harassment and abuse
- Compensation and benefits
- Hours of work
- Prohibition of discrimination
- Health and safety
- Freedom of association and collective bargaining
- Environment
- Customs compliance
- Security

Unlike other programs, WRAP provides annual, independent determinations of each facility's standing and incorporates risk-focused reviews after certification to confirm continued compliance.

### WHAT WE OFFER

With over 30 years of social compliance field experience, our strong technical background translates into the approval to conduct WRAP assessments. As a WRAP-accredited monitoring firm of over 13 years, we can help to assess your adherence to WRAP's core principles in over 20 countries, with many approvals in Asia, Africa and South America.

A successful audit from us will generate a WRAP official audit report. Certification may be granted by WRAP for six months, one year or two years, depending on the final audit results and the time that the facility has held certification.

We are a founding and full member of the leading industry association, the Association of Professional Social Compliance Auditors (APSCA). We have a global network of more than 800 experienced APSCA-enrolled auditors in over 60 countries.

With over a decade of experience with WRAP audits, we have accredited auditors in most major sourcing countries and can provide consistent monitoring and reporting.

### WHO IS IT FOR?

Any organizations, production and manufacturing professionals, and risk managers that want to:

- Implement, maintain and improve safe, lawful, humane and ethical manufacturing
- Work at ground level to bolster their compliance standing
- Support the long-term success of the business
- Protect the liberties of workers
- Safeguard the environment
- Abide by all applicable laws and best practices

### KEY BENEFITS

WRAP certification follows successful completion of an audit and enables you to:

- Demonstrate that your facility meets or exceeds international social compliance standards
- Provide assurance to potential buyers who value responsible production
- Secure your supply chain and align with the 12 principles
- Raise your company profile and reach

### ABOUT SGS

We are SGS – the world's leading testing, inspection and certification company. We are recognized as the global benchmark for sustainability, quality and integrity.

Our 98,000 employees operate a network of 2,650 offices and laboratories, working together to enable a better, safer and more interconnected world.
